

SATURDAY, JANUARY 29. 1743.

Rome, Jan 12.

**T**HE Reason of the different Calculations that are made here of the vacant Cardinals Hats, which some call Seventeen, and others Eighteen, is owing to this, that the former do not reckon Cardinal Stampa's into the Number, because his Successor in the Archbishoprick of Milan must have to his Hat, the

is, that the Senate of Milan name a certain Number of Ecclesiasticks, of Noble Families, to his Holiness, out of them he makes Choice of an Archbishop, he also honours with the Hat. A Report runs that a certain Prince has suggested to his Holiness, expediency of endeavouring a Reconciliation between Emperor and the Queen of Hungary, to which the seems to listen with Attention. It is also said, the Sacred College are endeavouring to find out a God, by which the Pope may gratify the King of Spain's Desire, of having the Cardinal Archbishop of appointed Primate of the Catholics in his Do-

Jan. 16. The Crostz which have left the march'd in three Columns; they make in all near Men. We are not much disturbed at the Loss of for they began to grow so mutinous and troublesome that they did full as much Hurt as Good. His Majesty has offer'd 4000 Militia to replace them, we are actually preparing Quarters, as well as Houses for between 12 and 14,000 Men, which are expected from Germany. The Spaniards are very far from in a Condition to act offensively; and besides, there great Disputes among their General Officers. It is said, that the Count de Gages is removed from Command in Chief, which has been given to the Count de Mariani, who is by Birth a Milanese, and who Creature of M. de Campillo, the present Minister at Court of Madrid. He is said to have form'd a Project for facilitating the Junction of the Spanish Armies, by the Marquis de la Mira's making an Inroad into the Duchy of Milan.

Jan. 21. Cardinal Tencin presented his Majesty with the List of vacant Benefices, which is set upon as a Mark of his being Successor to the late Cardinal. It is confidently reported at Court, that the Cards for the Year 1743 are already settled, and that if Deficiency should arise, new ones will be easily found. Several Millions have been remitted within these Weeks to Franckfort, in order to enable his Imperial Majesty to appear with Lustre on his Return to Munich, and to put it in his Power to encrease his own Army to 40,000 Men. Here has been a Print banded out, which has given the Court some Uneasiness; it represents a Beam with a large Pair of Scales, in one of which sit four Officers, in as many Chairs, and on the Scales of the Chairs are written Seckendorff, Broglie, Maillebois. In the other there is an Officer only dress'd, with his Sword drawn in his Hand, upon the Blade of which is the Word Kevenhuller. At the bottom there is a Distich, intimating, That a Pound of twenty Ounces is heavier than four Quarters of a Pound sixteen. The new Levies that were suspended for a time, are now prosecuted with greater Heat than ever. Orders have been sent to ransack all the Bridewells in France, and to send the People confined in them to the Army. Instructions have been likewise given to the War-Office, to assemble with all Speed 1500 Horses for drawing the Artillery which is to be sent to the Meuse, for the Use of a numerous Army shortly to be assembled here under the Command of Marshal Noailles. They have also had Orders to send 2000 Horses into Bavaria. The Duke of Orleans assists more frequently at Council than ever, and some People begin to fancy that we shall very soon see very considerable Changes in the Ministry, while others are of Opinion, that the King will apply himself more assiduously to Affairs of State, and oblige his Ministers to be content with an equal Authority.

**Extract of a Private Letter from the Hague.**  
Feb. 1. 1743. 'The States of this Province have continued their Deliberations lately with an Application very remarkable. We are very well assured, that they have taken a final Resolution as to the grand Point in debate, tho' it is kept extremely secret. We expect daily to hear, that the Town of Dort has departed from its Opposition, in Imitation of the Brill, which, on hearing the Reasons of the States Deputies, concurred immediately with what was proposed to them.'

Private Letters from Paris say, that the Court has order'd 12,000 Regular Troops, and 20,000 Militia, to hold themselves ready to march into Bavaria.

The Charming Susan, Scott, from London for Carolina, was spoke with the 23d of December, 100 Leagues from Carolina, all well.

The Alexander, Saunders, from London for Jamaica, is one of the Ships carried into Cherbourg; but who the other is, is uncertain.

Yesterday was held a Board of Admiralty, when their Lordships were pleas'd to appoint Lieutenant Dodd, who

was First Lieutenant of the Dragon, to be Captain of the Blandford Man of War, a 20 Gun Ship.

The same Day, the Lords Commissioners of the Admiralty review'd, in the Gardens behind the Office, upwards of 150 Seamen, worn out in the Service of the Crown. About Fifty of them were minuted down for the Pension of Greenwich Hospital.

## Extract of a Letter from Gibraltar, dated the 3d Instant.

'On the 27th ult. came in the Poultney Privateer, Captain Purcell, being on a Cruise at the Back of this Rock, met with two very large Spanish Privateers, King's Vessels, each having 120 Men on board, and mounting 12 Carriages, and a great Number of Swivel Guns; against which he defended himself with that Conduct and Bravery, that notwithstanding he could not multer above 38 Men, he has done them so much Damage, they will not be able to put to Sea again. They had on their Side 100 kill'd, and as many wounded; but Purcell came off with very little Damage to his Vessel, and without the Loss of one Man. His Behaviour in this Affair, as well as in many other Cases of the like Nature, has gained him the universal Applause here; and to do him justice, he has been of more Service in this Part, than any other Ship whatsoever; tho' 'tis hoped, as the Admiral has ordered two Bomb-Ketches to cruise in the Bay Gur, our Trade will not suffer so much as heretofore.

This Morning arrived here the Constantine, Whitechurch, from Bristol; she has brought in with her a Spanish Privateer Snow, with upwards of 80 Men, which was formerly an English Packet. She was taken by the Constantine, with the Tower Gally, Capt. Wingfield, who is likewise arrived here.'
